

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### **Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### **About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. THE Rectory of Allcannings and the Chapelry of Etchilhampton, though distinct benefices, have been united from time immemorial under one rector. Since the Dissolution of Monasteries, Allington, a separate civil parish, has been placed under the same care.

The following copy of the registers is printed by the permission of the rector, the Rev. J. S. Crisall, who most kindly gave every facility for the work. The original spelling has been carefully retained, and the reader must not too hastily attribute its strange irregularities to the carelessness of transcriber or printer.

1660.—Be it remembered that Henry Kinninmond, Rector of Allcannings did (according to the law in that case provided) read the 39 Articles of the Church of England in due season, and did give his assent to each Article distinctly within 1 month after his institution into the said Rectorie of Allcannings. Robt. Nicholas, Wm. Fowle, 4 May 1669. Bee it remembered that Henry Kinninmond, Rector of Allcannings, did order his servant, Robert Bartlet, to put fower cowes into the pasture grounds of the farm<sup>r</sup> and that the said Robert Bartlet did actually put to depasture his masters cowes in every pasture ground where the farmer doth usually put his cowes to depasture, except the ground called (thew) lands, this was done the day and year above written in the presence of us whose names are under written. Daniell Maslin, Jeffery Pottenger (his mark), Edward Dike, churchwardens.

*On the cover* "Hoc nomen peno quia librum perdere nolo, 1700," also "Joanna Stoodley, Ann Stoodley, George Stoodly".

A parchment book much mutilated; it is endorsed "No. 2, from 1628 to 1709, Births, Marriages, and Burials. N.B., this register is defective, the entries therein, from 1640 to 1670, being altogether lost: the first leaf taken from the 1579 register No. 1."

Register Book No. 3 would seem to have been discovered after this was written, and the gap is only from 1685 to 1698. The leaf from the 1579 Register is not now to be found, unless a fly leaf is meant on which is written twice "Register Book for ———, Leonard Cozens, clerk", and in another hand, "1628".
